## **Principal's Thoughts..... Luke Fisher – Acting Principal**

### **Resource Smart School**

This week we had a very special visitor from the ‘Waste and Resource Recovery Group’. Marnoo has been a Resource Smart School for the past couple of years and our Project Coordinator Paul Lehmann has helped us on our journey. Last year, we won an award for our sustainable use of water around the school. Our award for winning was a digital weather station. We will install our weather station in the near future and we hope that the local community can also use this great resource. We must thank Paul and Mrs McIntyre for their tireless work to make our school a resource smart school. We have earned an impressive 4 out of 5 stars for being a sustainable school which is a great achievement.

### **Striving for Excellence**

This week we have been completing some testing that helps the teachers prepare the student reports. The students have done a great job, even when they found some of the tests very challenging. Our students have demonstrated their ability to strive for excellence which is one of our school values.

### **Lunch orders**

On Wednesday, we had our first lunch order day for the year! We had a meal deal that included a hot dog, donut, fruit box and a zooper dooper. Thanks to Leanne who donated all of the food and drinks and prepared our lunch orders. It is much appreciated by all of us at Marnoo. Next term we will have a menu for our students to choose and order from. The year 3/4 students will help in preparing the lunch orders next term.

Mr Fisher

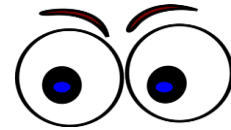

**Emily Polkinghorne**

For having a positive attitude towards new things on our Ecolinc excursion to Minyip.

**LOOK WHAT WE HAVE BEEN DOING**

**Above:** A picture of our students with our new weather station

**Above:** We even received a whiz bang computer with our weather station so that we can see what is happening in our atmosphere.

# GARDEN ROSTER INC POOL YARD
